

# TR1040-T

## Ultralight Tactical Boot

An ultralight tactical boot, the 10-40 Series is engineered to provide maximum comfort and support without the weight of standard duty boots. At the core of the new series is the PTO® orthotic footbed; a proprietary, load-bearing removable insert that uniquely combines the benefits of shock absorbing foam with superior arch support. The 10-40 Series is the new benchmark for light, fast, engineered tactical boots.

**PTO®**  
POWER TAKE OFF FOOTBED
